DETAILED ACTION

Claim Objections

1. Claim 15 is objected to because of the following informalities: The structures of compounds 2-5 are so unclear that they cannot be readily discerned, and are unsuitable for publication. In particular the "8" and "17" are all smudged. In compound 4, the double bonds attaching to the N groups are not clear, neither are the N atoms. Most of the polycyclic ring system of compound 5 is unclear. It is not clear what are the substituents of compound 5. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 appears to teach -OR groups on the structure of compound 5, however such R is not defined in either the specification or claims. The scope of n is also not defined in the specification or claims. The scope of the claim is thus not clear.

4. Claims 2-6 and 8-12 are allowable over the art of record.

Art Unit: 1712

5. Applicants cancellation of the nonelected claims is noted. Further review of claim 15 shows deficiencies which are addressed in this action.
